

MAJESTIC  
MEASURING  
GUIDE

M A

J E S

T I C

## INTRODUCTION

The aim of this guide is to make obtaining accurate dimensions for the manufacture of Frameless Shower Screens as straightforward as possible.

Simply find the situation that matches your own (e.g. corner enclosures), fill in the sheets where prompted and attach them to the order.

Although all of the examples in this guide show measurements being taken on a shower tray, when measuring a wet room area the method is exactly the same.

## CONTENTS

**Straight Enclosures (Alcoves)**

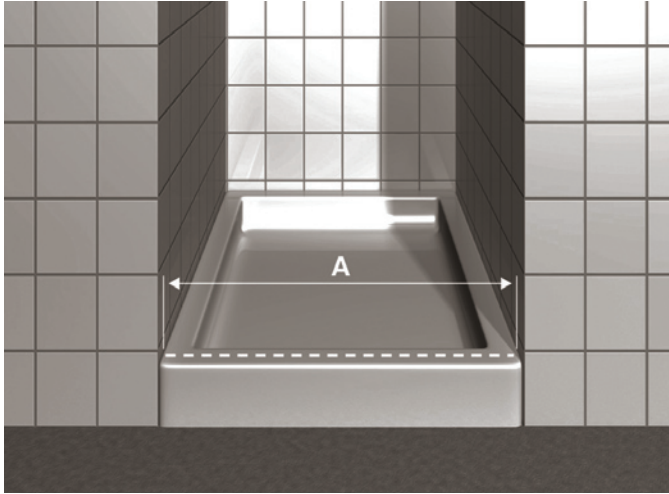

**Corner Enclosures**

**Neo Angle Enclosures**

**Three sided Enclosures**

# STRAIGHT ENCLOSURES (ALCOVES)

Please measure the width of the alcove along the shower tray. Always measure to finished tiled walls, never provide Majestic with overall shower tray dimensions.

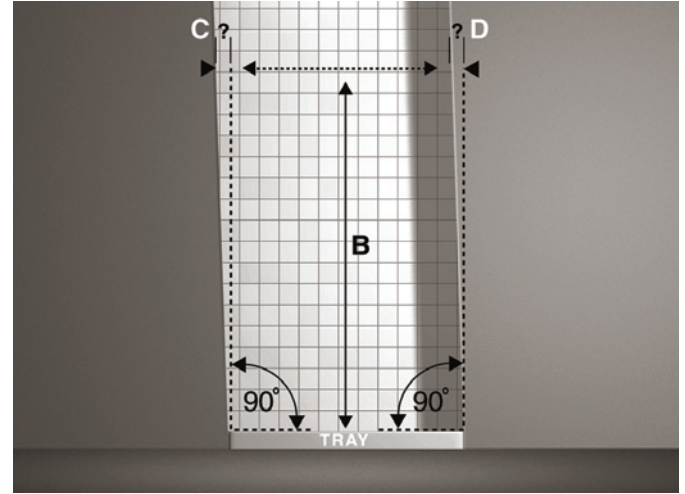

**BASE DIMENSIONS:**

Measurement A – Base Width of Alcove \_\_\_\_\_ mm

Print Name: \_\_\_\_\_

Sign Name: \_\_\_\_\_ Date: \_\_\_\_\_

Please specify the height required (standard height is 2000mm). The walls may not be plumb. Measure how much each wall leans in or out.

Measurement B – Height of shower screen \_\_\_\_\_ mm

Measurement C – Left Hand Wall Leans in/out\* \_\_\_\_\_ mm

Measurement D – Right Hand Wall Leans in/out\* \_\_\_\_\_ mm

\*underline applicable

Now that you have obtained thorough dimensions for your alcove enclosure please tear out these sheets, sign them and send them to Majestic along with your order.

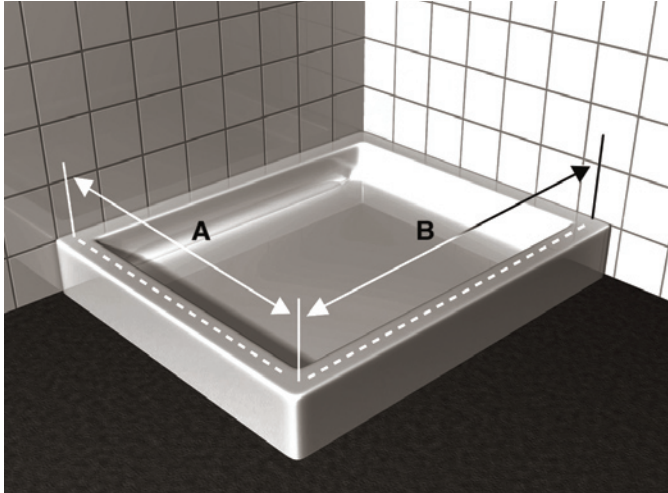

Print Name: \_\_\_\_\_

Sign Name: \_\_\_\_\_ Date: \_\_\_\_\_

# CORNER ENCLOSURES

Please measure the front and side widths along the shower tray. Always measure to finished tiled walls, never provide Majestic with overall shower tray dimensions.

Keep in mind that the dimensions you give will be the outer dimensions of the enclosure. Avoid measuring too close to the edges and corner of the tray.

## BASE DIMENSIONS:

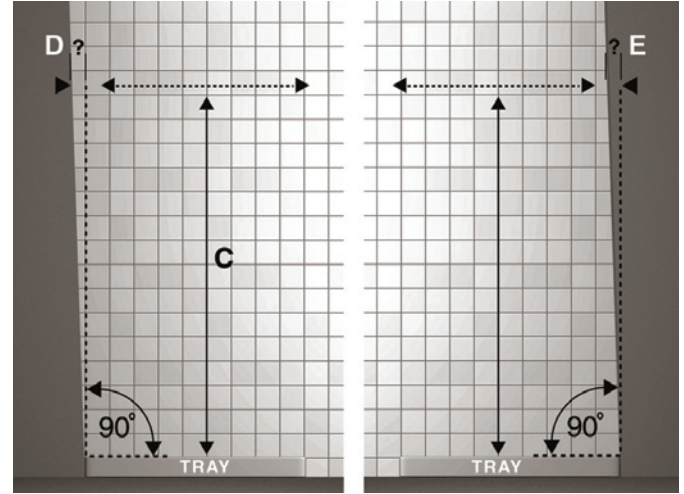

Measurement A – Front Width of Corner Enclosure \_\_\_\_\_ mm

Measurement B – Side Width of Corner Enclosure \_\_\_\_\_ mm

Print Name: \_\_\_\_\_

Sign Name: \_\_\_\_\_ Date: \_\_\_\_\_

Please specify the height required (standard height is 2000mm). The walls may not be plumb. Measure how much each wall leans in or out.

Measurement C – Height of shower screen \_\_\_\_\_ mm

Measurement D – Left Hand Wall Leans in/out\* \_\_\_\_\_ mm

Measurement E – Right Hand Wall Leans in/out\* \_\_\_\_\_ mm

\*underline applicable

Now that you have obtained thorough dimensions for your corner enclosure please tear out these sheets, sign them and send them to Majestic along with your order.

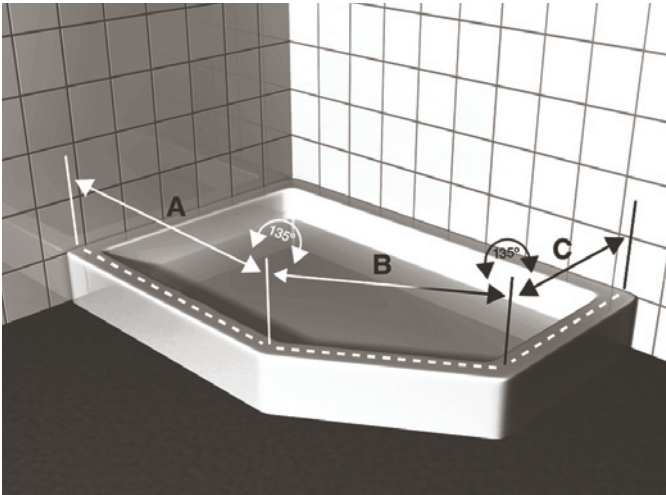

Print Name: \_\_\_\_\_

Sign Name: \_\_\_\_\_ Date: \_\_\_\_\_

# NEO ANGLE ENCLOSURES

Please measure the left, centre and right widths along the shower tray.  
Always measure to finished tiled walls, never provide Majestic with overall shower tray dimensions.

Keep in mind that the dimensions you give will be the outer dimensions of the enclosure. Avoid measuring too close to the edges and corners of the tray.

## BASE DIMENSIONS:

Measurement A – Left Width of Neo Angle Enclosure \_\_\_\_\_ mm

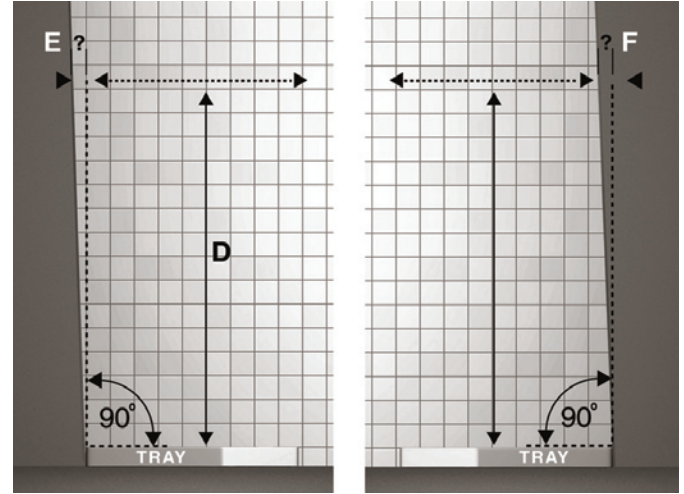

Measurement B – Centre Width of Neo Angle Enclosure \_\_\_\_\_ mm

Measurement C – Right Width of Neo Angle Enclosure \_\_\_\_\_ mm

Print Name: \_\_\_\_\_

Sign Name: \_\_\_\_\_ Date: \_\_\_\_\_

Please specify the height required (standard height is 2000mm). The walls may not be plumb. Measure how much each wall leans in or out.

Measurement D – Height of shower screen \_\_\_\_\_ mm

Measurement E – Left Hand Wall Leans in/out\* \_\_\_\_\_ mm

Measurement F – Right Hand Wall Leans in/out\* \_\_\_\_\_ mm

\*underline applicable

Now that you have obtained thorough dimensions for your neo angle enclosure please tear out these sheets, sign them and send them to Majestic along with your order.

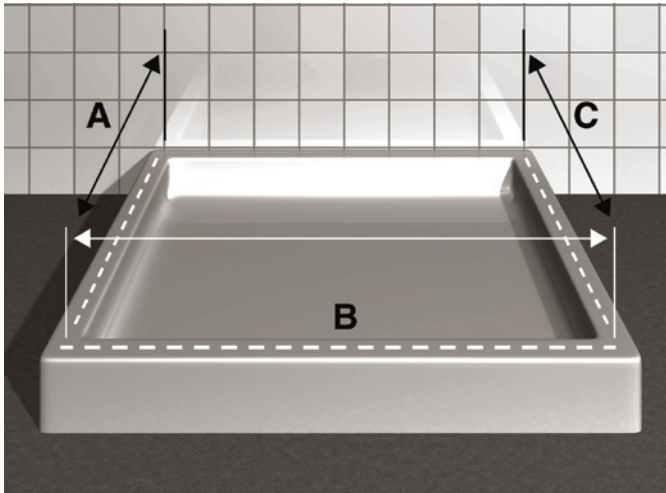

Print Name: \_\_\_\_\_

Sign Name: \_\_\_\_\_ Date: \_\_\_\_\_

# THREE SIDED ENCLOSURES

Please measure the left, centre and right widths along the shower tray.  
Always measure to finished tiled walls; never provide Majestic with overall shower tray dimensions.

Keep in mind that the dimensions you give will be the outer dimensions of the enclosure. Avoid measuring too close to the edges and corners of the tray.

## BASE DIMENSIONS:

Measurement A – Left Width of Three Sided Enclosure \_\_\_\_\_ mm

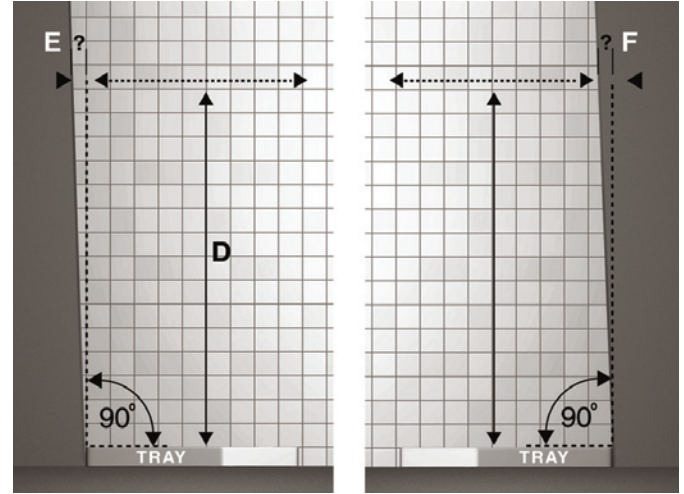

Measurement B – Front Width of Three Sided Enclosure \_\_\_\_\_ mm

Measurement C – Right Width of Three Sided Enclosure \_\_\_\_\_ mm

Print Name: \_\_\_\_\_

Sign Name: \_\_\_\_\_ Date: \_\_\_\_\_

Please specify the height required (standard height is 2000mm). The walls may not be plumb. Measure how much each wall leans in or out.

Measurement D – Height of shower screen \_\_\_\_\_ mm

Measurement E – Left Hand Wall Leans in/out\* \_\_\_\_\_ mm

Measurement F – Right Hand Wall Leans in/out\* \_\_\_\_\_ mm

\*underline applicable

Now that you have obtained thorough dimensions for your three sided enclosure please tear out these sheets, sign them and send them to Majestic along with your order.
