Why Majestic

Innovators by nature. Pioneers in engineering excellence. Since 1968, Majestic has been leading the way in glass shower screens and enclosures. More than fifty years later our commitment to elegant, timeless and understated design remains as strong as ever.

A Majestic shower is an icon of beauty. It possesses an exacting, aesthetic quality all of its own – one that transcends superficial fads and trends.

Whether you seek a sanctuary of calm or refreshing invigoration Majestic lets your imagination run free. Large or small, modern minimalism or classic opulence, our shower collection will transform your bathroom and enhance your home.

From our inception in 1968 we only had in mind to provide the best design and quality.

This is what we do.

John King
Founder
1937 - 2018

Enjoyed in discerning homes, landmark hotels and resorts throughout the world, Majestic is recognised by leading architects for exceptional shower screen design.

We work closely with designers and architects, using our expertise to ensure their exacting standards are met for prestigious projects.

The Experts' Expert

We were attracted by the classic lines and clean, simple designs of Majestic for our prestigious development, The Lancaster.

With over 300 bathrooms to install we used a combination of the framed shower screens and frameless bath screens. Mixing classic and contemporary – which is exactly what The Lancaster is all about.

Majestic's products were in keeping with the rest of the development, in terms of both quality and finish. And because their shower screens come in a wide range of sizes, we had a greater degree of flexibility with our bathroom designs and layouts. Majestic also provided good technical back-up throughout the project.

Orlando Rodriguez
Architect

Star and Garter Mansion, Richmond

With a view protected by an Act of Parliament and famously captured by JMW Turner in his painting 'Richmond Hill', it's no surprise the Star and Garter Mansion on Richmond Hill is one of the most exclusive addresses in the capital.

The meticulous refurbishment of this Grade II listed landmark provides a stunning range of luxuriously specified residences. Majestic were invited to supply Rio and Portofino enclosures as well as Genoa and Valletta bath screens from The Essential Frameless Collection.

It is a privilege to be able to offer both a technical, consultative design service to architects on the most prestigious projects in London, whilst also being able to give individual retail clients the 5 star luxury bathroom experience they deserve.

With debonair charm and à la mode finishes within each of the apartments, new life has been breathed into this Edwardian-meets-21st-century development. Majestic were invited to supply Ponente and Rio screens as well as fully recessed Odessa sliding doors.

Survey and Installation Service

We will visit your home to survey your shower space and advise on your specification. Your enclosure will be manufactured to the precise measurements taken on site and installed by our expert installers. Painstaking care is taken on site, with profiles adjusted to millimetre perfect lengths, to ensure you receive the best in fit and finish.

Postcodes served

Postcodes are divided into areas 1, 2 and 3. Please see the key below and map overleaf to find your postcode.

- Area 1
- Area 2
- Area 3 - price on application

All London postcodes fall within Area 1. Other postcodes not shown are in Area 3.

Tiering information

Products are grouped into tiers for pricing purposes. Please see product pages for tiering information (pages 91-140)

Things to bear in mind

Before we are able to survey your site, your shower area must be finished, with walls tiled and shower tray installed. 10mm frameless glass is very heavy, therefore it is essential that there are appropriate grounds for our fixings wherever the shower screen meets a wall or ceiling. The minimum requirement is 19mm thick ply behind plasterboard and pipes must not be run behind fixing points.

Terms and Conditions

Survey requirements are provided at the point of enquiry. Two working days' notice is required to cancel and rebook appointment. Both surveys and installations cancelled with less notice will be charged at the aborted installation price. A decision maker must be present at both survey and installation for confirmation of specification and placement of enclosure, in addition to sign off both pre and post installation.

Management of the service

Your bathroom designer will provide Majestic with your product, site and contact details. Subsequently you will be contacted by Majestic to arrange a site survey. When the site survey has been completed Majestic will provide your designer with a comprehensive quote, taking into consideration exact dimensions and any other relevant information.

Oversized panels

Panels over 2.8m² are considered oversized due to their weight and complexity to handle. Enclosures with oversized panels will be highlighted following the site survey. They may require a courier service delivery in addition to a 3 man installation team, therefore oversized units will be subject to a surcharge of £255.

Further Services	Area 1	Area 2
Site survey	£215	£320
Oversized panel	£255	£255

All Frameless and Beyond Bespoke shower screens, excluding Vigo, are made in 10mm thick glass. Demi Framed doors are 8mm thick. All glass is toughened safety glass to BS EN 12150.

In accordance with BS EN 14428 each enclosure is marked with BS EN 12150, usually on the leading edge of the door or panel.
