Installation notes

When installing the Levant without a headrail, there must be clearance above the door. Please do not order to the exact aperture height when choosing not to specify a headrail.

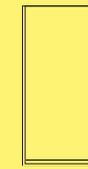

When installing with optional headrail, a 150mm gap is required between the headrail and the ceiling or soffit for fixing. Therefore the door should be installed prior to the soffit.

When installing with optional headrail into a pre-existing aperture, the headrail can be installed from below. This must be specified when the order is placed.
